

## Express Js Interview Questions

1. Why do we need to use Express js while we can do almost everything in Node js?
2. Why Express js is a framework not a library?
3. What is middleware in Express js?
4. What is the purpose of the next() function in Express middleware?
5. What is the difference between app.get() and app.post()?
6. What is middleware chaining in Express?
7. What is CORS and how do you handle it in Express js?
8. Which architecture pattern is used by Express js?

### Senior Level:

9. How can you improve the performance of an Express.js application?
10. What is the purpose of the helmet middleware?
11. How can you cache responses in express js?
12. What are common mistakes developers make with middleware chaining?
